

HYDRO 2020- International Conference

On

Hydraulics, Water Resources, and Coastal Engineering

(26-28 March, 2021)

Organized by

Department of Civil Engineering, National Institute of Technology Rourkela, Odisha – 769 008

In association with the Indian Society for Hydraulics (ISH), Pune, India

Dear Authors,

Hope you and your family are staying safe and healthy!

We have now prepared the schedule of HYDRO 2020 in its Silver Jubilee year as per the theme, invited talks, keynotes and session chairs. You can find the detailed schedule through the website (<https://www.hydro2020.org/>). This event is special because of its coincident with the Diamond Jubilee celebration year of NIT Rourkela. There are around 285 registered quality papers, 10 foreign Invited talks and 24 special keynote talks have been planned to be presented.

All the programs of this virtual conference will be conducted through Cisco WebEx Platform. So, you can participate, present and share your discussions through this platform only.

Following are the simple instructions and guidelines provided for you to make the system smooth and easy:

- Presenting authors are required to send their PPT file to the hydro2020nitrkl@gmail.com by 23rd March 2021 without fail.
- The file name of the PPT should be the paper ID as mentioned in acceptance letter. You are requested to mention in the subject of the mail as Paper id_ Number of Technical sessions, then Parallel session Number. (e.g.: HYD2020-199_First Technical session Parallel session 3)
- Limit your Slides within 15-20 pages (including cover pages),
- Total time provided for presentation: 15 minutes (10 minutes presentation and 5 minutes discussion)

- Because of very tedious task done to arrange and match the timing of all International and national level people to prepare the schedule, so further change of the presentation schedule of the authors is highly discouraged.

In each parallel session, the presentation will be guided and evaluated by the respective session chairs. From each parallel session (theme), one work will be selected as the Best Paper and another as the best presentation (This will be done on the basis of the review already done and the presentation performance in the session).

We look forward to your active participation in the HYDRO-2020.

NB: Our Team members will contact you soon through WhatsApp and email, and you can ask your queries by the return mail. Authors are requested to provide the WhatsApp number (if available) for creating the group if you have not provided during registration.

Thanks & Regards

On behalf of the organizing committee

Prof. Kishanjit Kumar Khatua

Organizing Secretary, HYDRO 2020- International Conference
